

# RETHINK TRANSIT

## Everett Transit is planning for the future

During 2020, we are planning for the future of transit in Everett. We want to hear about your transit values and priorities.

Take our brief survey: [RethinkET.participate.online](https://rethinket.participate.online)

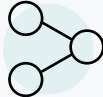

## Why is this planning needed?

Everett is growing, with the population expected to increase by up to 60% in the next 20 years. The City's goals include supporting the transportation needs of this growing population and business community. To help accommodate growth, the Everett Transit Long-Range Plan was finalized in 2018. This plan defined objectives for Everett's transit planning through 2040.

Since adoption of the plan, it appears funding for transit will not be enough to meet Everett's growth goals. The City has identified different options for funding transit in Everett, which is why we are seeking more input.

**Option 1:  
Growth**

**Option 2:  
Growth through  
consolidation**

**Option 3:  
Current  
system**

In the coming months, we will share more information about these options and how they will affect your transit experience. We will keep you informed throughout the process.

## Help shape the future of transit
